ABOUT US

Tấn Đạt Flex (TanDatFlex) chuyên sản xuất và gia công khớp nối mềm inox, khớp giãn nở nhiệt, ống mềm inox, bộ chống rung, bộ hút nước chống xoáy và các sản phẩm cơ khí theo bản vẽ. Xưởng sản xuất tại Vĩnh Lộc, TP.HCM – giao hàng toàn quốc.

CONTENTS

01	Stainless steel flexible joints	19 products
02	Expansion joints	7 products
03	Stainless steel flexible hoses	17 products
04	Exhaust flex pipes	3 products
05	Anti-vortex plates	6 products
06	Fabricated parts	10 products

Made to order — size, connection type and material on request.

STAINLESS STEEL FLEXIBLE JOINTS

304/316 stainless steel flexible joints (braided bellows connectors) for pumps, fire protection, HVAC and boilers — flanged, threaded, union and sanitary clamp ends. Made to order.

Flanged stainless steel anti-vibration flexible joint

Length: On request
Material: 304 stainless steel (316 on request)
End connection: Flanges (JIS/BS/ANSI)

Code: TD-1006

[Contact for price](#)

Custom flanged anti-vibration joint - made in HCMC

Length: On request
Material: 304 stainless steel (316 on request)
End connection: Flanges (JIS/BS/ANSI)

Code: TD-1013

[Contact for price](#)

Stainless steel flexible joint - anti-vibration connector

Length: On request
Material: 304 stainless steel (316 on request)
Custom manufacturing: Yes - size, end connection, material

Code: TD-1016

[Contact for price](#)

Custom stainless steel flexible joint - Ho Chi Minh City

Length: On request
Material: 304 stainless steel (316 on request)
Custom manufacturing: Yes - size, end connection, material

Code: TD-1017

[Contact for price](#)

Stainless steel flexible joint / vibration absorber

Length: On request
Material: 304 stainless steel (316 on request)
Custom manufacturing: Yes - size, end connection, material

Code: TD-1019

[Contact for price](#)

Flexible joint with 10K stainless flanges, one fixed one floating

Length: On request
Material: 304 stainless steel (316 on request)
End connection: JIS 10K flanges, one fixed + one floating flange

Code: TD-1028

[Contact for price](#)

Pipe flexible joint - vibration damper

Length: On request

Material: 304 stainless steel (316 on request)

Custom manufacturing: Yes - size, end connection, material

Code: TD-1035

[Contact for price](#)

Stainless flexible joint DN50, JIS 10K flanges, fixed + floating

Nominal size: DN50

Length: On request

Material: 304 stainless steel (316 on request)

Code: TD-1051

[Contact for price](#)

Stainless flexible joint DN50 with JIS 10K stainless flanges

Nominal size: DN50

Length: On request

Material: 304 stainless steel (316 on request)

Code: TD-1048

[Contact for price](#)

Flexible joint DN150, JIS 10K steel flanges, fixed + floating

Nominal size: DN150

Length: On request

Material: Steel / stainless on request

Code: TD-1052

[Contact for price](#)

Flexible joint DN200, PN16 flanges, fixed + floating

Nominal size: DN200

Length: On request

Material: 304 stainless steel (316 on request)

Code: TD-1053

[Contact for price](#)

Flexible joint with two fixed flanges

Length: On request

Material: 304 stainless steel (316 on request)

End connection: Flanges (JIS/BS/ANSI)

Code: TD-1054

[Contact for price](#)

Flexible joint DN100, JIS 10K stainless flanges, fixed + floating

Nominal size: DN100
Length: On request
Material: 304 stainless steel (316 on request)

Code: TD-1059

[Contact for price](#)

Stainless flexible hose with cast iron union ends

Length: On request
Material: 304 stainless steel (316 on request)
End connection: Union

Code: TD-1034

[Contact for price](#)

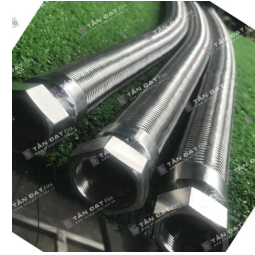

304 stainless flexible joint with double nipple ends

Length: On request
Material: 304 stainless steel (316 on request)
End connection: Double nipple

Code: TD-1061

[Contact for price](#)

304 stainless steel threaded flexible joint

Length: On request
Material: 304 stainless steel (316 on request)
Custom manufacturing: Yes – size, end connection, material

Code: TD-1008

[Contact for price](#)

Flexible joint with stainless unions, female & male threads

Length: On request
Material: 304 stainless steel (316 on request)
End connection: Union, Female / male thread, Flare end

Code: TD-1040

[Contact for price](#)

Sanitary flexible joint DN50 x 300 mm, tri-clamp ends

Nominal size: DN50
Length: 300 mm (custom lengths available)
Material: 304 stainless steel (316 on request)

Code: TD-1049

[Contact for price](#)

Stainless flexible hose with sanitary union ends

Length: On request

Material: 304 stainless steel (316 on request)

End connection: Union

Code: TD-1058

EXPANSION JOINTS

Stainless steel thermal expansion joints and Pasty compensators designed for steam lines, hot water systems, engine exhaust pipes, and industrial piping.

Thermal expansion joint with tie rods

Length: On request

Material: 304 stainless steel (316 on request)

Custom manufacturing: Yes - size, end connection, material

Code: TD-1009

[Contact for price](#)

Stainless steel expansion joint / bellows compensator

Length: On request

Material: 304 stainless steel (316 on request)

Custom manufacturing: Yes - size, end connection, material

Code: TD-1014

[Contact for price](#)

Stainless steel bellows expansion joint

Length: On request

Material: 304 stainless steel (316 on request)

Custom manufacturing: Yes - size, end connection, material

Code: TD-1018

[Contact for price](#)

Stainless steel thermal expansion joint, flanged

Length: On request

Material: 304 stainless steel (316 on request)

Custom manufacturing: Yes - size, end connection, material

Code: TD-1025

[Contact for price](#)

Custom flexible & expansion joints - Vinh Loc workshop

Length: On request

Material: 304 stainless steel (316 on request)

Custom manufacturing: Yes - size, end connection, material

Code: TD-1030

[Contact for price](#)

Stainless expansion joint with JIS 10K steel flanges

Length: On request

Material: 304 stainless body, steel ends

End connection: JIS 10K flanges

Code: TD-1045

[Contact for price](#)

Bellows compensator with inner sleeve

Length: On request

Material: 304 stainless steel (316 on request)

Custom manufacturing: Yes – size, end connection, material

Code: TD-1033

[Contact for price](#)

STAINLESS STEEL FLEXIBLE HOSES

Stainless steel 304/316 braided flexible hoses, heat-resistant corrugated hoses for steam, gas, oil, water — threaded, union, flanged connections. Custom-made in any length.

Threaded hose connectors - all thread types

Length: On request

Material: 304 stainless steel (316 on request)

End connection: Female / male thread

Code: TD-1024

[Contact for price](#)

Stainless flexible hose, one 90° elbow end and one straight end

Length: On request

Material: 304 stainless steel (316 on request)

Custom manufacturing: Yes - size, end connection, material

Code: TD-1029

[Contact for price](#)

Stainless flexible hose with D and F type ends

Length: On request

Material: 304 stainless steel (316 on request)

Custom manufacturing: Yes - size, end connection, material

Code: TD-1031

[Contact for price](#)

Stainless flexible hoses with any thread type

Length: On request

Material: 304 stainless steel (316 on request)

End connection: Female / male thread

Code: TD-1037

[Contact for price](#)

Stainless flexible hose with female cone-seat thread

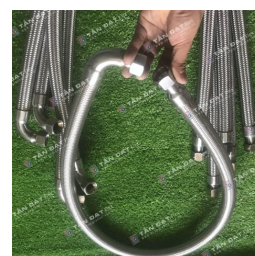

Length: On request

Material: 304 stainless steel (316 on request)

End connection: Female cone seat thread

Code: TD-1044

[Contact for price](#)

Stainless flexible hose DN20, elbow + straight end

Nominal size: DN20

Length: On request

Material: 304 stainless steel (316 on request)

Code: TD-1050

[Contact for price](#)

Stainless flexible hose DN32 x 500 mm, steel cone-seat ends

Nominal size: DN32
Length: 500 mm (custom lengths available)
Material: 304 stainless body, steel ends

Code: TD-1056

[Contact for price](#)

Stainless flexible hose DN25, elbow + straight end

Nominal size: DN25
Length: On request
Material: 304 stainless steel (316 on request)

Code: TD-1062

[Contact for price](#)

Stainless steam hose, heat resistant

Length: On request
Material: 304 stainless steel (316 on request)
Custom manufacturing: Yes - size, end connection, material

Code: TD-1036

[Contact for price](#)

Stainless flexible hose with steel cone-seat thread ends

Length: On request
Material: 304 stainless body, steel ends
End connection: Female cone seat thread

Code: TD-1060

[Contact for price](#)

PTFE hose with stainless steel braid for harsh media

Length: On request
Material: PTFE core, 304 stainless braid
Custom manufacturing: Yes - size, end connection, material

Code: TD-1001

[Contact for price](#)

304 stainless heat-resistant flexible hose

Length: On request
Material: 304 stainless steel (316 on request)
Custom manufacturing: Yes - size, end connection, material

Code: TD-1039

[Contact for price](#)

Heat-resistant hose for steam, gas, fuel and oil

Length: On request

Material: 304 stainless steel (316 on request)

Custom manufacturing: Yes – size, end connection, material

Code: TD-1041

[Contact for price](#)

High-temperature hose with female cone-seat thread

Length: On request

Material: 304 stainless steel (316 on request)

End connection: Cone-seat thread

Code: TD-1043

[Contact for price](#)

304 stainless braided corrugated hose

Length: On request

Material: 304 stainless steel (316 on request)

Custom manufacturing: Yes – size, end connection, material

Code: TD-1038

[Contact for price](#)

304/316 stainless high-temperature hose

Length: On request

Material: 316 stainless steel

Custom manufacturing: Yes – size, end connection, material

Code: TD-1042

[Contact for price](#)

Unbraided stainless flexible hose DN15 with flare ends

Nominal size: DN15

Length: On request

Material: 304 stainless steel (316 on request)

Code: TD-1055

[Contact for price](#)

EXHAUST FLEX PIPES

Stainless steel exhaust flexible pipes, soft exhaust pipes, and stainless steel expansion bellows for engines, generators, forklifts, trucks, and automobiles.

Custom exhaust flex pipes and bellows

Length: On request

Material: 304 stainless steel (316 on request)

Custom manufacturing: Yes - size, end connection, material

Code: TD-1046

[Contact for price](#)

Engine exhaust flex pipe for forklifts, trucks and cars

Length: On request

Material: 304 stainless steel (316 on request)

Custom manufacturing: Yes - size, end connection, material

Code: TD-1047

[Contact for price](#)

Stainless steel exhaust flex pipe

Length: On request

Material: 304 stainless steel (316 on request)

Custom manufacturing: Yes - size, end connection, material

Code: TD-1057

[Contact for price](#)

ANTI-VORTEX PLATES

Anti-vortex plates and anti-vortex suction units with strainers for water tanks, fire protection water tanks, and fire pumps.

Anti-vortex plate with strainer

Length: On request

Material: 304 stainless steel (316 on request)

Custom manufacturing: Yes – size, end connection, material

Code: TD-1007

[Contact for price](#)

Custom anti-vortex plate

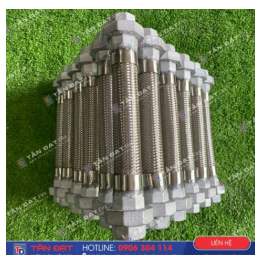

Length: On request

Material: 304 stainless steel (316 on request)

Custom manufacturing: Yes – size, end connection, material

Code: TD-1012

[Contact for price](#)

Anti-vortex suction assembly for fire pumps

Length: On request

Material: 304 stainless steel (316 on request)

Custom manufacturing: Yes – size, end connection, material

Code: TD-1020

[Contact for price](#)

Anti-vortex suction assembly

Length: On request

Material: 304 stainless steel (316 on request)

Custom manufacturing: Yes – size, end connection, material

Code: TD-1021

[Contact for price](#)

Anti-vortex plate for water tanks

Length: On request

Material: 304 stainless steel (316 on request)

Custom manufacturing: Yes – size, end connection, material

Code: TD-1022

[Contact for price](#)

Anti-vortex plate assembly

Length: On request

Material: 304 stainless steel (316 on request)

Custom manufacturing: Yes – size, end connection, material

Code: TD-1023

[Contact for price](#)

FABRICATED PARTS

Flanged pipe spools, wall sleeves, concrete-embedded pipes, welded crosses, and custom welding to drawing in HCMC.

Flanged pipe spool - steel / 304 / 316 stainless

Length: On request

Material: 316 stainless steel

End connection: Flanges (JIS/BS/ANSI)

Code: TD-1010

[Contact for price](#)

Stainless wall sleeve / pipe sleeve

Length: On request

Material: 304 stainless steel (316 on request)

Custom manufacturing: Yes - size, end connection, material

Code: TD-1011

[Contact for price](#)

Rigid pipe & wall sleeve with puddle flange

Length: On request

Material: 304 stainless steel (316 on request)

Custom manufacturing: Yes - size, end connection, material

Code: TD-1015

[Contact for price](#)

Wall sleeve with puddle flange

Length: On request

Material: 304 stainless steel (316 on request)

Custom manufacturing: Yes - size, end connection, material

Code: TD-1032

[Contact for price](#)

Custom unbraided flanged pipe

Length: On request

Material: 304 stainless steel (316 on request)

End connection: Flanges (JIS/BS/ANSI)

Code: TD-1002

[Contact for price](#)

Fabrication to drawing or sample

Length: On request

Material: 304 stainless steel (316 on request)

Custom manufacturing: Yes - size, end connection, material

Code: TD-1003

[Contact for price](#)

Custom stainless steel trolley

Length: On request
Material: 304 stainless steel (316 on request)
Custom manufacturing: Yes – size, end connection, material

Code: TD-1004

[Contact for price](#)

Flange welding for flexible joints

Length: On request
Material: 304 stainless steel (316 on request)
End connection: Flanges (JIS/BS/ANSI)

Code: TD-1026

[Contact for price](#)

Welded pipe cross fabrication

Length: On request
Material: 304 stainless steel (316 on request)
Custom manufacturing: Yes – size, end connection, material

Code: TD-1005

[Contact for price](#)

Joint welding fabrication

Length: On request
Material: 304 stainless steel (316 on request)
Custom manufacturing: Yes – size, end connection, material

Code: TD-1027

[Contact for price](#)
